

Victor E. Benstead Plunge

Lightening Protocol

Safety is our number one priority for our community and staff. On occasion the pool may close unexpectedly and without notice due to lightening. If lightening is sighted, please follow instruction from staff immediately. Everyone must exit the pool entirely and immediately. At the first sighting of lightening, the lap swim program will be interrupted for a minimum of 30 minutes provided there are no subsequent lightening sightings. In the event that subsequent lightning sightings do occur, the 30-minute minimum clock restarts.

For example: if lightening is sighted at 12:00pm and there are no more lightening sightings, the program will resume at 12:30pm. If lightening is sighted at 12:00pm and once again at 12:10pm, the program will resume at 12:40pm, 30 minutes after the most recent lighting sighting.
